-

2018 Australian Graduate Programme

At Rio Tinto you can explore and develop your personal and professional potential within one of the most dynamic and diverse companies in the world.

Our graduate programme is designed to develop our future management and technical leaders. From day one you're treated as a professional in training. Graduates will be offered permanent employment

You'll be developing your professional skills with a true global leader. This is real work with real support, real rewards and real future career development opportunities.

We are currently accepting applications for our February 2018 graduate programme on a first in basis, so we recommend you send your resumes through to me on neesha.sen@riotinto.com.

All vacancies are located in Western Australia, and range from fly in, fly out and residential (relocation may be required for residential roles).
